WELCOME TO THE 2017 WORLD ENGLISH SPORTING CHAMPIONSHIP

Welcome to the 2017 World English Sporting Championship and the National Shooting Complex. This year marks the first time the World English has returned to San Antonio in four years. Record numbers in attendance at this year's event proves that the World English continues to be the pinnacle of Sporting Clays competition worldwide. This year over 17 countries are represented here in San Antonio, Texas to determine who will go home with the "Gold" medal.

For your shooting enjoyment, we have added some new layouts for many of the events. Please be sure to check your map at the center of the program for course and practice locations.

We invite you to join us for dinner and opening ceremonies Friday evening that will be immediately followed with a firework display. Saturday night we will host the Sportsman's Insurance Championship Party where we will be serving dinner and cocktails on the clubhouse porch to accompany the traditional Yanks vs. Brits Shootout held in the stadium.

Our sponsors and vendors are an essential part of the team that make this event such a success. Please take the time to visit vendor row and check out the latest and greatest items that shooting sports has to offer.

We at the NSCA want to thank all competitors for attending this year's Championship and we hope everyone enjoys themselves!

Be sure to mark your calendars for next year's championship event which will be hosted by E.J. Churchill in West Wycombe Estate, Buckinghamshire June 25th – July 1st .

Enjoy your stay here in San Antonio!!

All protests must be made in accordance with NSCA or FITASC rules and will be decided upon by the Protest Committee whose decision is final.

PERSONAL CART INSURANCE: NSSA-NSCA-NSC has implemented a policy that proof of liability insurance is required for operation of personally-owned carts at the facility. Minimum liability, such as written for auto policies, for injury/accident is what is required. The policy is required to have reference to the cart that is to be operated and often can be added to current auto or home owner policies. Proof of insurance can be sent prior to your arrival via email to Lori Hartmann at lhartmann@nssa-nsca.com or by US Mail to:

NSCA-LORI HARTMANN
5931 ROFT RD
SAN ANTONIO, TX 78253

Your cart permit, which is to be displayed on the cart, will be available in your shooter packet. If you are unable to send insurance in advance of arrival, simply bring your proof of insurance into Registration when you arrive and a permit will be produced and issued.

CLAYS CARS: Individually-owned clays cars, gators, mules and other similar vehicles are allowed or, if you prefer, clays cars may be rented. No ATV or 4-wheelers allowed. You must be at least 18 years old to operate a clays car. Special rules apply and permits are required for both personal and rental carts. Personal cart forms can be downloaded from www.mynsca.com. A \$10 trail fee is required for all personal carts. A cart permit will be issued upon NSCA receiving the trail fee and verifying insurance. For more specific information, call Lori Hartmann at 210-688-3371 ext. 116. Rental Golf Cart forms are available at deverinc.com or contact Dever at 859-455-9586 or by email at info@deverinc.com.

SAFETY REQUIREMENTS: Eye and ear protection is mandatory. All persons, spectators, shooters, referees and trap personnel must wear eye and ear protection on the course.

SHOTGUN STORAGE: Secure storage is available for participants' guns. Cost is \$5 per day per gun.

INCLEMENT WEATHER/LIGHTNING PLAN OF ACTION: At the first sign of an approaching storm, local Doppler radar will be monitored for the direction and severity of the storm. At the same time, shoot management will be strategically positioned to monitor the approaching storm for lightning and any other potential dangerous elements.

At first sight of lightning (by and/or relayed to any shoot staff), a cease-fire will be called immediately via PA system and by shoot management to each field where PA is not available. All fields will be cleared of both participants and staff, with all taking cover in available areas, i.e.: Club House, Vendor Buildings, vehicles, etc.

Shoot management will continue to monitor lightning strikes, starting a new time clock with each observed strike. At the duration of 20 minutes with no strikes, shoot management will begin the process of returning participants to the field(s) to continue with shooting. By starting this process at 20 minutes, the total elapsed time from the last strike until shooting begins is anticipated to be 30 or more minutes.

The above process will be repeated for any and all storms/lightning strikes observed.

In the event of any other dangerous elements of an approaching storm, such as extremely high winds/tornado or hail, the same cease-fire and field evacuation procedures as above will be implemented as soon as the danger is realized.

OTHER INFORMATION: Shoot Management reserves the right to alter or cancel any part of this program if conditions warrant. Management decisions are final. In accordance with NSCA Rules, Shoot Management may refuse any entry or cause the withdrawal of any contestant who annoys, endangers or interferes in any way with the harmony of the shoot or, in Management's opinion, whose conduct is unsportsmanlike.

Spectators and contestants assume all risks resulting from accident or loss of property occurring on the NSC property. The NSC and NSCA are not responsible for theft or accidents of personal property or vehicles.

Success

has a pattern...

and it comes out of a Briley choke.
While other companies have come
and gone, Briley has been *the name* in
chokes for almost 40 years.

Our superior performance is a result of:

- Innovative engineering and manu-
facturing processes
- High quality materials and ballistics
- Quality personnel
- Living, breathing customer service.
A live person answers the phone, a
live person answers your questions,
and you'll see Briley representatives
on the road and at shoots.
- Lifetime customer support

So remember, when you need to
select a choke, there's a lot more to
consider than pattern and distance.

1831

Box Pigeon Trap

Trapshooting was first contested in the US at the Sportsmen's Club of Cincinnati, Ohio in 1831. The term 'trapshooting' comes from the old pigeon rings of long ago where the birds were released from ground traps with long cords attached to the trap.

1915

Hand Held Trap

This is one of the first hand held traps and was manufactured in 1915 by Marlin. This trap is called the 'front end loader' by collectors. A second trap by Marlin, very similar, but much larger, was called the 'breach loader' and loaded from the back of the target platform.

1970

Modern Trap

The modern day traps are equipped with revolving carousels and are fired by hard-wired pull cords. With a capacity averaging around 300 targets and heavy duty motors, these machines can throw targets in excess of 75 yards.

Long RANGE
Wireless Trap Release

1878

Glass Ball Trap

From around 1876 to 1885, because of a decline in the availability of live birds as well as changing social attitudes, glass balls often were the target of choice. This trap was manufactured by M. E. Card of Cazenovia, New York.

1940

Trap Machine

This trap was manufactured in Monroe, Michigan by Routledge Manufacturing Company. It was designed to throw small, black "mosquito" miniature clay targets. Traps like these were manually fired using a system of springs and levers.

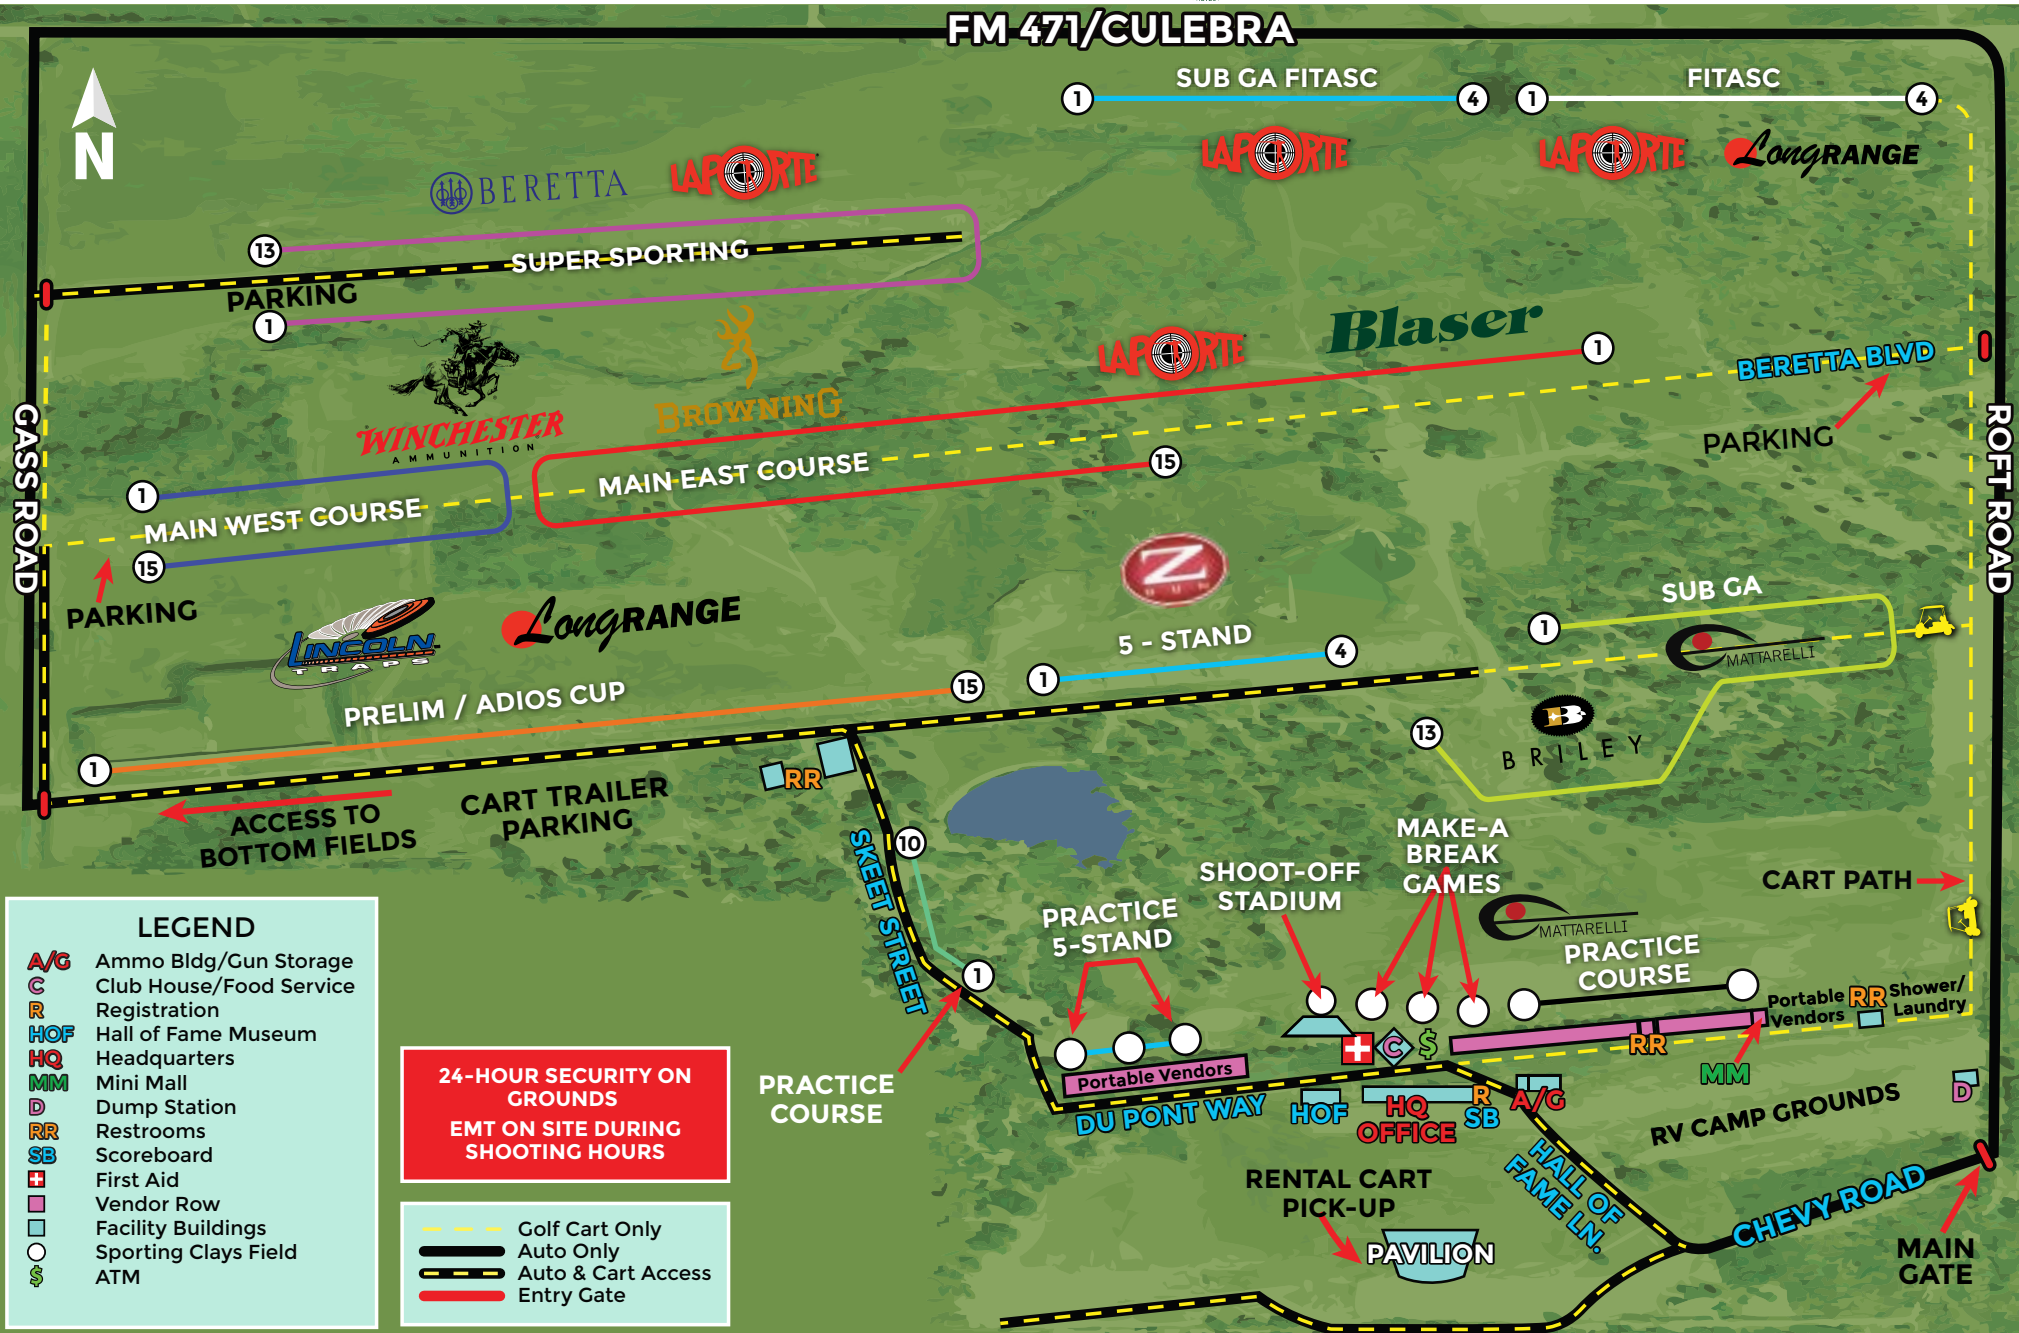

Today

Wireless Release

Long Range's line of transmitters and receivers eliminate the need for wired pull cords. Incorporating voice release allows shooters to launch traps 400 yards away with the sound of their voice or the report of their gun.

FOCUS ON FAMILY, FRIENDS AND FUN...

Pat Lieske

Finding time in your busy schedule to go break a few targets might seem like a feat of magic these days, but consider how important a couple of hours spent with your family and friends can be.

Time to focus on what's important. Teaching your kids responsible gun handling, or helping a friend break those elusive rabbit targets are all important to having a great time shooting White Flyer targets.

So take a lesson – or give some pointers. Bring your family and friends, spend the day with Pat and White Flyer Targets, you'll be glad you did!

"Growing up, I spent many weekends and summers out in the field or at the range with my father and brothers. I have been fortunate enough to continue this tradition with my two boys. As a range owner, it is always a pleasure to see others do the same; and with the consistency of White Flyer Targets, they can do so without worrying about broken targets ruining the fun!"

2017 WORLD ENGLISH

Determining a World Champion

If the main event of the World English Championship is shortened due to the occurrence of any natural disaster, act of God or event beyond the direct, immediate control of the National Shooting Complex and National Sporting Clays Association the following procedure will be used to establish the World English Sporting champion, runner up, and third place.

- 1) The total score shot from all competitors plus the addition of 100 targets for the remaining course not shot will be the raw score to determine the shoot off for champion, runner-up, and third place for the World English Championship. The top 6 scores and all ties will move into the stadium field to attempt a 25 bird Super Final. The competitors will continue to shoot an additional 25 targets until all ties have been broken to establish the Champion, Runner Up, and third as well as any additional places in Master Class. First Second and third in all classes and concurrent will be determined by a shoot off in the corresponding field to determine class and concurrent champions. No champion will be named unless all competitors have shot at least 100 targets.
- 2) Ties will be shot-off or broken as if no uncontrollable occurrence has happened.
- 3) The shoot-off for champion, runner-up and third place will be held, weather permitting, on Sunday of the World English Championship in the Shoot-off Stadium at approximately 6:30 p.m. CST.
- 4) The shoot-off for first, second and third place in all Classes and Concurrents will be held, weather permitting, on Sunday of the World English Championship at approximately 6:30 p.m. CST at a site to be announced.
- 5) If these above mentioned shoot-offs cannot be held on Sunday evening prior to 10:00 p.m. CST due to the occurrence of any natural disaster, act of God or event beyond the direct, immediate control of the National Shooting Complex and National Sporting Clays Association the champion, runner up, and third place as well as first, second, and third places for all Classes and Concurrents shall be decided by scores on 4 pre determined tie breaker stations on each course(s) that all competitors who are tied have completed. Assuming competitors have completed the course, the pre determined tie breaker stations will be used from courses in the following order: East then West. If there is still a tie after comparing scores on all possible tie breaker stations the Class and Concurrent champion, runner up, and third place will be determined by the longest run from the front on courses they have all completed following the order listed above.
- 6) Any shooter who is not present 10 (ten) minutes before the shoot-off shall forfeit his or her position. The position will not be filled by any alternates.
- 7) The shoot-off rotation will be determined by a lottery draw completed inside registration.
- 8) The World English Sporting Champion will be the individual with the highest score.

- 1) All awards will be based on scores of competitors who complete the event. If no shooters complete the event, no awards or punches will be provided.
- 2) Shoot-offs for event champion, runner up, and third place will be conducted on Sunday evening at approximately 6:30 p.m. at a site to be announced.
- 3) Shoot-offs for Concurrent and Class champion, runner up, and third place in the Prelim, 5-Stand, Super Sporting, Adios Cup, Small Gauge and Parours de Chasse events will be conducted on Sunday evening at approximately 6:30 p.m. at a site to be announced.

If the shoot-off cannot be held on Sunday evening prior to 10:00 p.m. CST due to the occurrence of any natural disaster, act of God or event beyond the direct, immediate control of the National Shooting Complex and National Sporting Clays Association the Prelim, 5-Stand, Super Sporting, Adios Cup, Small Gauge and Parours de Chasse event's open champion, runner up, and third place as well as Class and Concurrent champions shall be decided by scores on (3) three rank ordered, pre determined tie breaker stations. If there is still a tie after comparing scores on all possible tie breaker stations the open champion, runner up, third place and Class and Concurrent champions will be determined by the longest run from the front of the event.
